

Maggi Radial Arm Saws

12" Professional Radial Arm Saw

The MAGGI PROFESSIONAL is a medium duty 12" Radial Arm Saw. It is a very versatile, multi-purpose machine which offers great flexibility to cabinetry shops, furniture and frame makers and sawmills. It features cast-iron arm, a cutting unit with a four bearings system, a 2.5 HP direct drive motor with electric brake and overload protection, a return spring device, sliding protection on the blade guard, adjustable crosscut stop and solid steel legs.
