

PROTECH

9" Quick Release Vice

MODEL : P-522ED

Manufactured with a close grained cast iron body and steel lead screw. The quick release mechanism is engaged using a trigger action. Clamping control is returned to the screw upon release of the trigger. Designed for bench mounting. Fitted with a front dog, which when used in conjunction with a bench stop, allows oversize work to be held secure.

Opening (mm) : 280(11") . Jaw Width (mm) : 230(9").
