

SANJUI SA640

Self-breaking motor with overload protection, complete with blade guard. Arm and base made of cast iron with 8 carriage bearings.

SPECIFICATION

- Maximum Blade Diameter: 400mm
- Blade Bore Diameter: 30mm
- Shaft dimension: 25x80mm
- Three phase motor: 4(3) HP(kw)
- Single Phase motor: 3 (2.2) HP(kw)
- Motor Speed: 2800rpm
- Dust chute diameter on blade guard: 60mm
- Rear dust chute diameter: 100mm
- Table dimensions: 975x1580mm
- Maximum cut width: 20x545mm
- Width and Height of cut: 125x450mm
- Maximum cut depth: 125mm
- Max. Height of blade from table: 45mm
- Max. cutting height at 45 degrees: 80mm
- Max. cutting height arm at 45 degrees (on right side): 20x380mm > 100x330mm
- Max. cutting height arm at 45 degrees (on left side): 20x190mm > 100x140mm
- Net Weight: 180Kg
- Gross Weight: 220Kg
- Overall Dimensions: 1400x850x530mm
